About The Event:

The workshop explores with the advent of cheap, disposable pens, new lifestyles (in fact lifeless styles) were formed that indulged us into this plastic menace. Society has been using these disposable plastic pens for over 50 years now. Yet, there is minimal awareness of the pollution caused by these small disposable items. The present generation have become so habituated to utilize one-time use pens (use and throw pens) and at times, we find people using refillable plastic pens, in the same manner as use and throw. All we utilize is the ink inside the pen, and then its disposed. Of course, there is no such thing as 'away'. Utilization of these disposable plastic pens is ultimately portraying "a throw-away society". The pen may be mightier than the sword, but at least the sword can be recycled. Even if someone wishes to purchase one, refills are not widely available, and it's difficult to find exactly the right type and size for each pen. In this regard, Green club along with NSS team has conducted an awareness programme on the usage of paper pens. Dr K Sirisha, Green Club coordinator has made the students aware of menace caused by use and throws pens and also instructed the students how to prepare paper pens through an online session for about 18 students of VIIT along with 30 school children of Steel City Public School have participated. The students have actively involved themselves in preparing these paper pens and they even started using them.

Venue: Virtual Mode

About the event:

In order to educate the importance of preparation of seed balls and seed preservation, the Green Club organized this event. On 14th October from 10:00 AM to 12:00 PM, the CSE department hosted this event. The Green Club coordinator has given a call to the students to prepare seed balls and the students have actively participated in the event. This event was supported by Green Club coordinator Dr. K. Sirisha. This event explains the importance of seed balls in depth, including what they are, how to prepare them, how they germinate, what they are used for, and some interesting facts about them. Totally 50 students were participated in this event.

World Environment Day Celebrations: Plant a Sapling in your Vicinity

On 5th June, 2020

**Organised by
Green Club, VIIT (A)**

Venue: Residential areas

About the event:

The Green Club of VIIT is celebrated the World Environment Day every year on 5th June to raise awareness about the need to protect the environment for the very sustenance of life on the planet Earth. With the present environmental disasters, the world is now totally dawned upon by the fact that balance of the ecosystem is the most vital element of the existence of the human race on the Earth. In a situation where the whole world is totally disturbed by the pandemic, the students and staff of VIIT were given a call by the Green club along with NSS unit for plantation of few significant plants that might include (medicinal/air purifiers/fruiting samplings) in and around their localities. One hundred and five students have actively participated in the event and have shared the photos to the event coordinator. After the plantation programme, a meeting was held using Google meet as a platform where the participants shared their views. As an opening remark of the meeting, Dr.V Madhusudhan Rao, Rector has appreciated the participants and also promised to extend his support during the pandemic, next Dr B Arundhati, Principal have shared the importance of few plants. She also gave some inputs that include herbal diet to enhance the immunity.
